Project Description

05. November 2013

Ram & Laxman Bishwakarma New House

With this project members of Himalayan Project and Skivehus Rotary Klub has supported to provide the Mother of Ram and Laxman Bishwakarma, Mrs. Menuka B.K., with a new stone house, to ease the life of the two disabled boys, but also of the brave mother, who are suffering a lot to give care for the two boys.

It shall be emphasized that the Father of the boys, Tula Man B.K., who have deserted the family, living with a new wife, shall be taken out of the ownership of the land and house, before construction can be initiated, and the Mother, Mrs. Menuka B.k., alone shall be registered as the owner. Without having this clause commenced, the project shall NOT be initiated.

At the meeting at the site in Phalamkhani, Thamakhani VDC on 19. October 2013, it was decided with the villagers who assembled, that the villagers of Phalamkhani will give volunteer labour for digging out for fundament and for carrying stone. It is the opinion of Himalayan Project, that the Father of the boys especially shall give a considerable amount of free labour.

The active and respected man of Thamakhani, Mr. Krishna Shrestha, promised that he will oversee that the project is progressing in the right way as a quality construction. He shall have the power to stop the construction activities at any time, as well as he at any time can report the progress and problem to HIPRON Manager Namgyal Jangbu Sherpa.

Under the construction, the Mrs. Menuka B.K. shall be consulted about the details of the house, and her opinion shall be taken seriously, especially about furniture and owen.

Kenja on 5. November 2013
