 Namaste Sir, I am Lucky Sherpa, Currently Studying nursing. Number of my family number including me is 8. I have 4 sisters and 1 brother. 4 sisters are studying but the brother is not, he is too small. I am eldest child my parents. I know how my parents have brought me up and educated me though they are uneducated. I am glad and lucky too, to have such parents who knew the importance of education and sent me to school. Life has been really harsh for them. I was born in remote place where there is no electricity no road no health post and no any other such remarkable presence of any government center. My most of sibling was born there. During my parents time there was no school in my village so, they were not able to get any kind of education, however, I was lucky that the primary school had been established in near by village where after finishing the primary level one have to move to another school, possibly in a near town. Life was really miserable then. For us that is why my parents moved to Katmandu to search better life for them and for us of course. I understand they really had a hard time raising all of us as each of us being enrolled to near by school and it is really costly. For our survival my parents run small carpet manufacturing factory but the income is low. And what they earn is just enough for food, sheltering, clothing and daily life. Now it has been very difficult to educate all the children for them and pay for higher education.

 Right now I have been studying nursing in Vinayak College of health science; it has been honorable profession all over the world. It is of 3 years of course. It is very tough job to get admission in college. About 250 competitors, only 40 students were selected and I was 1 among them. Yearly admission should be done and monthly fee should be paid and other miscellaneous expenses occur. Though it is very expensive course, my parents want to see me being a successful woman, independent so they are struggling for me and my sibling, food, clothing and education of daily life. To reduce the financial burden of my parents I do not use transportation, I walk about 45minute for college at 7.30 AM and return after 4.30 Pm afternoon. I personally would like to appeal for help and support from you for my better future which in turn affect my sibling life. Following are the expenses that my parents are paying for my higher studies annually. Your kind support is highly appreciated heartily. A) Annually admission fee is 50.000 Rupees B) monthly fee is 2.500 Rupees C) Educational materials (stationery) 12.000Rupees for a year.
