Sub: A report of shifting junbesi secondary school at cheding.

Dear Sir,

Shifting junbesi secondary school at chedinghas brought curiosity on studentan enthusiar teacher and a sign of development in the community and individuals connected. It has trig to hot discussion in every hots and street. We are receiving their responses. Recently we l 'Interaction workshop' among our grade 8,9 and 10 stuents here in junbesi secondary schc We found 16 students out of 19 from grade 10, 18 students out of 19 from grade 9 and 20 24 from grade 8, who express their view in faver of shifting the school at cheding. Below orignal verson for and agains if.

Shifting is necessary.

- “It will creat a good learning enviroment to keep concentration on study because of its location”
- “We will have spacious playground and enough facilities”
- “It cuts down daily expenses as there are no hotels”
- “It prevents those students from drinking alchohal and playing pool and caronm etc”
- “The present school punctuates peaceful dwelling of the village and makes dirty”
- “We can have a close view of veautiful scenes”
- “Now school increases the number of student because it covers the densely populated and provides an access to nearby village”

Shifting is not needed.

- “Night falls while retuning home for we distant students”
- “One hour break won't be enough to eat tiffin at home and no hotels to buy there”
- “We can't walk on a goat path”
- “We will have a medical problems”
- “Local markets will be affected”
- “There will have problem of class missing students because they may go in to the jungl teachers won't keep an eye on them”.

We will keep on sending fresh opinions from other sides since we are moving in to th villages to collect Interaction on this matter.

Thank you!

Junbesi secondatry school fam

Comments on report of shifting Junbesi Secondary School at Cheding.

To Junbesi Secondary School Family!

Thank you for the most wonderful report on the 8-10 class students' comments to the idea shifting the school for Cheding.

In Rotary and Himalayan Project we are very satisfied with such a report, as it shows the c of the local population, pro et contra. This report gives us a lot to think about, which can c our plans dramatically. When we want to implement this project, we should be able to ma everybody happy. Therefore the opinions against the project actually are the most importa

We are also very satisfied to know from the report, that it is giving hot discussions in the and surroundings. It is very important that all involved actors in the project are taking par process of decision and influencing the decision makers. It is now, in the Phase of Prepar that people shall give their opinion, so we can change details in the project to satisfy ever Crying out later will be fruitless and only disturbing a process on its way.

Who are actually the actors of this project? In fact it is everybody, as a school, like this or are planning, really will influence the lives of everybody in the surroundings. Not only in VDC but also actually in the whole of Upper Solu, as the student hostel will be able to accommodate students from far away. This school shall be the school of all people in Upp Solu, their pride and happiness.

We are happy to know from your report that you are fully aware of this and want to intera the villages on the subject. We just hope you will not forget any group of citizens even th who usually are not speaking loudly. And also not forgetting specific interest groups, like teachers, hotel owners, students of the primary and lower secondary schools in the surrou and anyone else who want or could speak out about the subject. And we really hope you v even report the most negative and inferior comments to the project. And we also hope you spread the meetings and reporting to the villages of the neighboring VDC's.

Please continue sending us reports on your meetings with groups of opinions and also abo comments, which you hear from individuals. It will make us aware. It will make our proje better project.

Thank you for this appreciated report!

Request for Report on Junbesi School

Dear Headmaster Ghimire and All Teachers of Junbesi School!

For our further work on the plans of the new Higher Secondary Technical School of Junbe Skivehus Rotary Klub would like very much to have a report from Junbesi Higher Second School as it looks today.

We would like to have following informations **about each one class** at the school:

How many boys and girls in total

How many boys and girls from:

Junbesi Village (up to 5 minutes distance)

Junbesi close surroundings (up to 15 minutes distance)

Upper Valley (Mopung, Pangkarma, Sumjingma etc)

Nashing and surroundings

Salabesi and surroundings

Rest of Beni VDC

Outside Beni VDC

Living at Cheding Hostel

Estimate on school attendance

Percent attending more than 90%

Percent attending 80-90%

Percent attending 60-80%

Percent attending less than 60%

Name and home village address of:

students living at Cheding Hostel

teachers living at Cheding Hostel

others living at Cheding Hostel

Name, home village address and temporary address of

All teachers at the school

Name and address of

All members of School Management Committee

We really wish to have these informations within not too long, so we can start our prepar: process of the new school project.

If you find that you could provide us with other useful informations, which I didn't mentio above, please send them too. We will receive all with gratitude.

For Skivehus Rotar

Kurt Lc
